

## **1,2,3 Splashing in the Sea**

This bath book can be easily shared while your child is splashing around in the tub, but maybe it would be safer to read it right before bath time! You will need to purchase some small sea animals for the bath, and make sure you get multiples of each. After reading this book with your child, take them to the bathtub where they can now count all their sea animals! Include a fish net for them to collect all the sea creatures in their bath, line them up on the ledge, and then count to see how many they have! Rub a dub-dub, fun in the tub!
