

Apple Pie Playdough

Here is the recipe:

2 cups baking soda (bicarbonate of soda)

1 cup corn flour (corn starch)

1.5 cups water

1 Table Spoon vegetable Oil

Food coloring – we used red

1 Tablespoon cinnamon + 1 Tablespoon All spice (cake spice / Christmas spice)

Apple Pie Play Dough Instructions:

1. Add all the ingredients to a pot – except the spices, the spices get added last when kneading!
2. If you would like to add food coloring – add it to the water *before* you start cooking – it is so much easier this way – rather than kneading in at the end!
3. Stir well before cooking. The corn flour will initially be hard to stir, but it will all come together and turn into a runny liquid.
4. Put it onto the stove and cook until it turns into a thick mush – and becomes really hard to stir.
5. It will still be a little more sticky than the play dough will end up once it is cooled and kneaded.
6. Set aside for a few minutes and knead when cool enough to touch.
7. At this point if you would like to add an apple pie scent – then add in the spice and knead further.

All that is left to do now is play!!
