

Here are some tips picked just for you for Bath Safety Month!

Rub a dub, dub, let's keep your baby safe in the tub!  
Before the bath, gather supplies,  
When baby's in the tub, you can't turn your eyes!\*\*  
Place a mat in the tub so baby won't fall,  
Fill it with water, 2 inches... that's all!  
Check the temperature using your forearm, that's best,  
Place your baby in the water if it passes the test!  
Use soap and shampoo that are both tear-free,  
And use a cup or a bowl to rinse off baby!  
Wrap your baby in a towel before lifting out of the tub,  
Hold him close while you gently rub.  
Your baby's clean, your baby's fine,  
You followed the tips for a safe bath time!

\*\* The most important safety tip for a safe bath time is to never leave your child unsupervised!
