

Bookends

Materials Needed:

- 2 Milk Cartons
- Red Construction Paper
- Rocks or Little Pebbles
- Attached Peck
- Scissors
- Glue
- Tape

Instructions:

- Cut the 2 milk cartons in half (you will only need the bottom) and throw away the top half
- Glue or tape the red construction paper all around the milk cartons so they are completely covered, do not cover the top yet
- Pour rocks or little pebbles into the milk cartons- this will make the cartons heavy enough so your books won't fall over
- Now cover the top of the milk carton with the rest of your red construction paper
- Cut out Peck (on the next page) and cut Peck in half
- Cut the extra paper away from Peck
- Glue the front of Peck on the left milk carton and glue the rest of Peck's body on the right milk carton
- Now you can place as many books as you like between the two milk cartons!
