

## WHAT CAN I DO IF I AM BULLIED?

### Overview:

### Ages: 4-6 years

Many children who are targeted by bullies do not know what to do in that situation. Helping them think about the strategies they can use to handle a bully can lessen the impact if bullying occurs. This lesson is also the basis for a larger discussion about bullying and how students can take responsibility for themselves in these situations. By presenting them with a wide range of choices, they can consider which situations best match their abilities. This will help them make responsible choices about their safety and that of their classmates.
