

Create an Environmental Print Book

What is an environmental print book? This type of book uses the signs, logos and symbols that children see everyday and recognize without being able to read them. For example, the Golden Arches or a stop sign.

What you need:

Newspapers, magazines or pictures of signs, logos and symbols

Scissors

Glue

Paper stapled together like a book

Help your child cut out familiar logos and symbols.

Paste one of each logo or symbol to a page.

Have your child “read” the book to you
