

Fireworks with a Fork

Looking for a quick and easy 4th of July craft project? Try making fireworks with a fork!

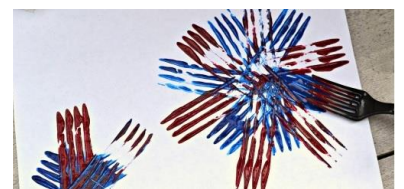

What you need:

A fork, plastic or metal

A paper plate for the paint

Craft paint (Red, White and Blue)

Paper

Instructions:

Start with one color of paint, dip the back of the fork in and then “wipe” the back of the fork onto the paper. Do this over and over and make a circle pattern. Clean your fork off and then go to another color. Do this over and over until you have used all the colors.
