

## Mardi Gras

Mardi Gras is the biggest party in New Orleans in February, but you don't have to be there to celebrate! Have your own Mardi Gras party at home! First, pick up some sturdy party plates in colors such as purple, gold, and green. Also, grab some party beads in those colors as well. Then, cut twelve, 1-inch snips along one side of the plate about an inch apart. Finally, drape the party beads in and out of the slits with the longer drapes being on the front of the plate. You have made your own Mardi Gras tambourines! Put on some fun music and parade around your house!
