

Parrot

Materials Needed:

- 1 Toilet Paper Tube
- Construction Paper
- 6 Feathers (you can either buy or make your own!)
- 1 Pipe Cleaner
- Scissors
- Tape
- Glue
- Markers
- Hole Punch

Instructions:

- Wrap Construction Paper around the whole tube. Then, wrap a smaller piece of construction paper at the top of the tube- this will be the parrot's head. Also, you can make a colorful chest for your parrot
- Draw eyes on two small circles and glue those to your parrot's head, then cut out a triangle for your parrot's beak
- Tape 2 feathers to the sides of your parrot- 1 feather on each side, for your parrot's wings- then tape 1 feather to the top of the tube for the parrot's crest
- Gather the 3 remaining feathers to make a tale for your parrot by gluing the feathers together and then taping the feathers to the back of the tube
- Punch two holes on each side of your bird- where the wings are at, but at the bottom of the tube
- Wrap pipe cleaner through the two holes and twist the cleaner around your wrist to keep your parrot with you on your pirate adventures!
