

Rainbow Rows

March brings leprechauns and.... Rainbows! Draw the curves of a rainbow on a piece of construction paper. Fill a bowl with Fruit Loops cereal or M&Ms or Skittles, or you can offer a combination of any of these yummy, and colorful, snacks! Then, tell your child to create rows of whatever item they like to create a rainbow. They have to use the same color for each row! When each row has been filled in, they will see the beautiful rainbow they have created! Before they eat their masterpiece, go over the colors they used and count the number of treats on each row. And finally, it is their lucky day because they get to eat this delicious spring treat!
