

Watermelon Slushy

How can your child enjoy juicy, delicious watermelon without making a sticky mess? Maybe even take it on the go when you need to run some errands? They can drink it by making this yummy slushy. Simply place a few cups of crushed ice and cubed watermelon into a blender and mix together. Then, add in a half-cup of frozen Cool Whip and blend again. Of course, your child can help with making this treat. Pour into a cup with a lid and straw and your child can enjoy the taste of watermelon without the mess!
